

[ASML Sailing Club the Netherlands](#)

Veldhoven, 17 December 2015,

Dear ASML sailing enthusiasts,

Your name has come up in relation to sailing within ASML. This mail is to inform you about activities we are performing to become a genuine, legal, ASML sailing club.

In the last months, we have determined and developed the pre-conditions to start the ASML Sailing Association (ASCN). The ASCN has now established a roadmap with lots of interesting sailing activities, an efficient internet communication structure, and an organization to facilitate the ASML sailors in their activities. We are now close to becoming an official legal association in the ASML Sport-Platform to support the ASML initiative for a great place to work, meet, learn and share.

The ASCN 2016 roadmap includes a range of activities including inshore and offshore sailing, racing, tour-sailing, training courses, internal and external lectures. In short: challenging events for experienced sailors as well as for a novice sailor. Last but not least we will build a community where support and advice on different topics will be available among the members.

In a separate mailing, we will send you an activity survey. In this survey we request you to indicate your interest in the 2016 planned activities, for alignment of ASML sailors with the ASCN organization. In the survey, we also ask your interest to become an ASCN member once ASCN has become a legal entity.

The ASCN goal is to provide the ASML sailors the means to coordinate, support and advertise a variety of sailing events. All of this is embedded in a solid financial, legal structure to guarantee a safe, enjoyable and challenging sailing atmosphere.

On behalf of the ASCN promoters, Ton van Gaans, Stan Mertens, Rene Pluijms, Ben Rademakers, Jolette Smits-Peters and Jannes de Vries; we hope to hear from you. Please explore the club's myASML site, post your ideas on the Yammer group and complete the survey.
